Governor

### **Department of Toxic Substances Control Project Status Update for Former Wyle Laboratories Norco Facility Site May 25, 2007**

#### **PROJECT ACTIVITIES**

- The Department of Toxic Substances Control (DTSC) mailed the fact sheet regarding the upcoming Open House on May 25, 2007. The fact sheet provides a summary of project activities to be highlighted in the Open House.
- DTSC received a Technical Memorandum for hydraulic containment of contamination in groundwater at the Northwest Area. Wyle prepared this Technical Memorandum in response to DTSC's request for controlling further migration of contaminated groundwater from the Northwest Area. DTSC plans to complete its review in one week.
- DTSC is currently reviewing the Interim RI and First Quarter 2007 Routine Monitoring Reports. The review of the Interim RI has been reprioritized as a result of other project work that needs to be reviewed on a priority basis. DTSC tentatively plans to complete the review in approximately six to eight weeks.

#### **Activities completed last week**

##### Onsite:

- Continued quarterly groundwater sampling. The sampling will be completed next week.
- Conducted field performance monitoring for demonstration plan in Area F.
- Conducted O&M activities for soil vapor extraction system.

Offsite:

- Continued quarterly groundwater sampling. The sampling will be completed next week.

**Activities planned for this week**

Onsite:

- Continue field performance monitoring for demonstration plan in Area F.
- Complete quarterly groundwater sampling.
- Conduct O&M activities for soil vapor extraction system.

Offsite:

- Complete quarterly groundwater sampling.

**Public Participation**

- DTSC plans to conduct an Open House on June 6, 2007 from 4:00 pm to 8:00 pm at Corona-Norco Unified School District, Learning Center North Meeting Room, 2820 Clark Avenue, Norco, CA 92860. The objective is to provide community with an update on Wyle Investigation.
